

ARKANSAS WOMEN'S BUSINESS CENTER

Small businesses are the lifeblood of the American economy. They make significant contributions to the economy and bring innovative products and services to the marketplace.

In Arkansas, the number of women-owned businesses is on the rise. The number is up 88% from 20 years ago, according to a 2017 American Express OPEN report. Arkansas now has an estimated 80,400 women-owned businesses employing 55,740 individuals and contributing \$9.5 billion in revenue to the state economy.

To support the rising trend, Winrock International's U.S. Programs has a substantial portfolio of entrepreneurial development programs, such as the Arkansas Women's Business Center (AWBC) headquartered in El Dorado, AR with an office in Little Rock. The center helps women-owned small businesses start, grow, and compete in global markets by providing quality training, counseling, and access to capital.
