

## AGRICULTURAL CHANCE

Increasing demand from Food companies has resulted in higher prices for bananas. Add 3 cash tokens if you have any Commercial Irrigated or Rainfed Agriculture land uses. If you have neither of these but have any Agroforestry land uses, add 2 cash tokens.

## AGRICULTURAL CHANCE

Pests have destroyed part of your crops. Subtract 3 cash tokens if you have any land uses that are Agriculture – Rainfed or Agriculture – Commercially Irrigated.

## AGRICULTURAL CHANCE

Soil erosion is causing siltation of the reservoir from which you draw water. You will need to dredge the reservoir to maintain productivity. If you choose to pay, subtract 5 cash tokens now or lose 4 soil tokens in each of the next two turns.

## AGRICULTURAL CHANCE

The price of crops from the region has risen, resulting in an increase in revenue for farmers. Add 3 cash tokens.

## AGRICULTURAL CHANCE

Your backup Diesel generators are aging rapidly. An NGO is offering to sell you more reliable solar generators at low interest rates, which do not need fuel. If you choose to pay for them, subtract 2 cash tokens in order to gain 1 in each following turn.

## AGRICULTURAL CHANCE

Due to a previous investment in better agricultural equipment, you have begun seeing improved yields and reduced losses. Add 3 cash and 2 soil tokens.

## AGRICULTURAL CHANCE

With support from the NRCS, you implement windbreaks at the borders of your farm in order to mitigate the effect of soil erosion. If you have any Agriculture (rainfed or commercial) or Agroforestry land uses, add 3 soil tokens.

## AGRICULTURAL CHANCE

The cost of feed has increased significantly due to global shortages. Subtract 2 cash tokens due to increased expenses if your farm contains a Silvopasture land use.

## AGRICULTURAL CHANCE

After attending a community workshop on soil health, you succeed in applying for a grant on implementing improved soil practices. Add 3 soil tokens.

## AGRICULTURAL CHANCE

Average regional temperatures have increased, leading to crop losses across your farm. For every card which is not conserved as a protected forest, subtract 3 cash tokens unless you have implemented climate-resilient crops.

## AGRICULTURAL CHANCE

The overdrawing of groundwater has resulted in government-mandated cutbacks, leading to yield declines. Subtract 2 cash tokens unless you have implemented water management.

## AGRICULTURAL CHANCE

Overapplication of fertilizers has led to increased nutrient runoff, increasing the costs of water treatment in your municipality. Subtract 2 cash tokens unless you have implemented Green Infrastructure.

## AGRICULTURAL CHANCE

Shifting rainfall patterns have resulted in longer hot and dry seasons, affecting your farm's output. Subtract 3 cash tokens unless you have implemented water management or climate-resilient crops.

## AGRICULTURAL CHANCE

A recent hurricane destroyed many homes in the area, resulting in several of your workers moving to the continental U.S. for work. Output declines as a result. Subtract 4 cash tokens.

## AGRICULTURAL CHANCE

A disease outbreak threatens your crop yields. Subtract 3 cash tokens to address outbreak and dispose of infected plants.

## AGRICULTURAL CHANCE

The cost of importing fertilizer to the island has increased. Subtract 2 cash tokens for every land use which is not conserved as a Protected forest unless you have implemented Composting.

## AGRICULTURAL CHANCE

After attending a community workshop on soil health, you succeed in applying for a grant on implementing improved soil practices. Add 3 soil tokens.

## AGRICULTURAL CHANCE

A disease outbreak threatens your crop yields. Subtract 3 cash tokens to address outbreak and dispose of infected plants.

## AGRICULTURAL CHANCE

Overapplication of fertilizers has led to increased nutrient runoff, increasing the costs of water treatment in your municipality. Subtract 2 cash tokens unless you have implemented Green Infrastructure.

## AGRICULTURAL CHANCE

The cost of importing fertilizer to the island has increased. Subtract 2 cash tokens for every land use which is not conserved as a Protected forest unless you have implemented Composting.

## AGRICULTURAL CHANCE

An international group of birdwatchers is visiting your community and is interested in visiting your farm. If you have any Agroforestry or Protected forest land uses, add 3 cash tokens. Add 1 token otherwise.
